

TASMANIAN SONG COMPANY PERFORMANCE STANDS

CONDITIONS OF HIRE

IT IS IMPORTANT THAT THESE BE READ AND UNDERSTOOD

General

The Tasmanian Song Company's performance stands are purpose built for concert accommodation in a tiered, 3-row configuration. They can accommodate 42 to 43 adults standing or 39 to 40 persons seated. Seating/standing and placement/specifications diagrams are attached. Stands are marked with coloured tape to make identification and placement easier.

Location

The stands are stored on a 8' x 4'6" enclosed trailer on the property of Brian and Annette Schmidt, Raffan Drive, Honeywood but arrangements may be made to deliver the trailer to a more central location for collection. Two or more persons are normally needed to handle the stands.

Collection Of Stands

Collection of stands should be arranged initially by contacting the Secretary of the Tasmanian Song Company (Tel 6243 8794).

Hire Period

The stands are available for a period of seven (7) days. Hire beyond that is negotiable.

Hire Fee

The standard hire fee is \$50.00. However a lesser amount (**minimum \$25.00**) may be negotiated if only a small number of stands are required. If the stands are transported for a distance in excess of 100 kms the hire fee is \$75.00.

Cheques should be made payable to the Tasmanian Song Company and forwarded to:

Tasmanian Song Company
PO Box 1381
LINDISFARNE Tas 7015

Authorised Usage

The stands are available for the sole use of the authorised organisation or persons and are not to be on-loaned or hired out to third parties.

Damage To Stands Or Trailer

Stands and trailer must be returned in the same condition as at the time of collection. Excluding normal wear and tear, the hiring organisation or person is responsible to repair or pay for any damage caused to the stands or the trailer while on hire.

Towing The Trailer

IMPORTANT: PLEASE NOTE that while the stands and trailer constitute a moderately heavy load, **THE TRAILER DOES NOT HAVE A FITTED BRAKING SYSTEM.** Persons towing the trailer should be aware of this and make allowance when stopping or slowing their vehicle.

The trailer is fitted with a standard 50mm towbar and flat 7 pin light fitting.

Unloading/Loading The Trailer

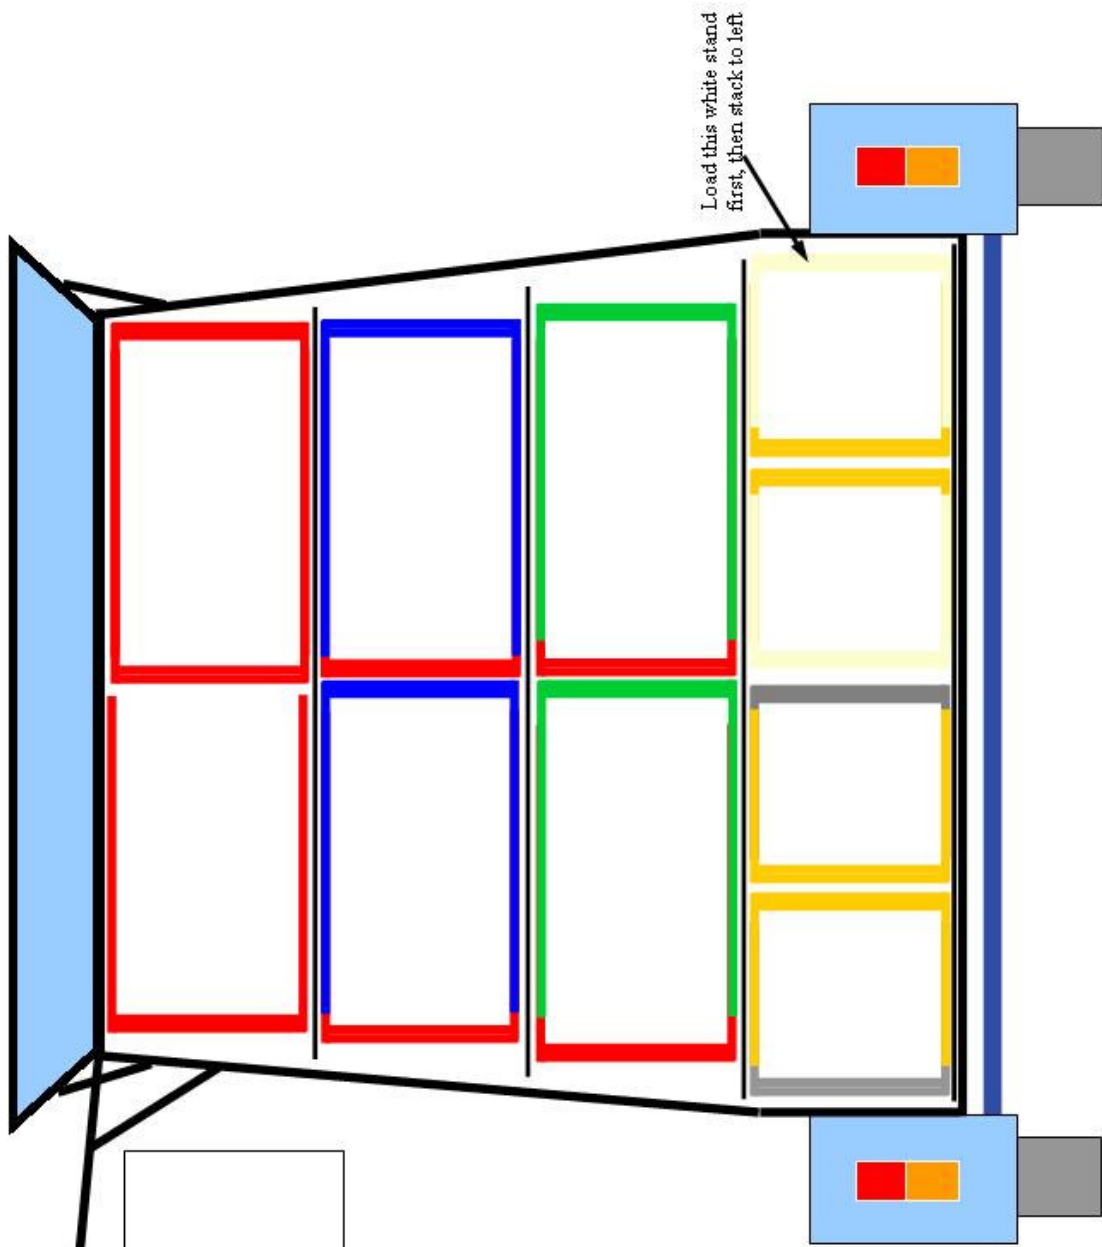

Stands are stacked on the trailer and nested within each other to minimise storage space. They must be carefully loaded back onto the trailer in the following manner:

1. A *single* protective sheet of masonite should be on the trailer floor. Load a 'white tape' (low/long) stand on the right hand side of the trailer, legs facing towards the left. Then nest a 'yellow tape' (low/short) stand inside it, legs facing towards the right. See diagram.
2. Continue with other bottom layer stands in this manner - ie nesting the low/short stands inside the low/long stands - until this layer is stacked. The last stand in (second from left) will be a tight fit!
3. Slide a sheet of masonite over the bottom layer and then begin stacking the second layer in the same way as the first according to colours in diagram.
4. Finish remaining layers in the same way.
5. The low wooden stands with adjustable legs should be slid in last.
6. Lash the stands securely using rope provided and lashing points inside the trailer.

DISCLAIMER FOR INJURY OR DAMAGE

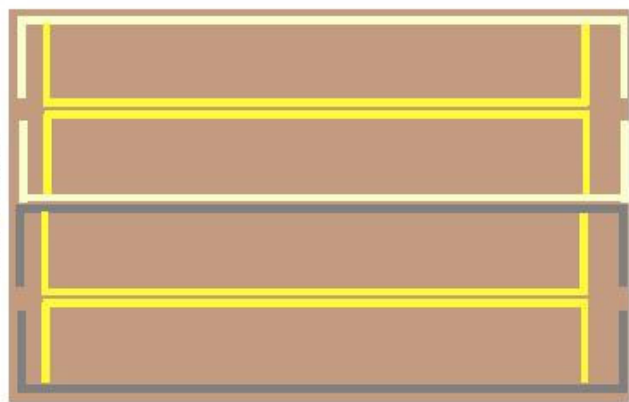

The Tasmanian Song Company accepts no responsibility for injury or damage to persons or property while the stands are in the process of being collected, transported, or returned; used for the purpose for which they have been hired; or otherwise while in the custody of the person or organization hiring them.

Hiring organizations are required to carry full public liability insurance cover.
